## about us

Dams Furniture have a proud heritage that spans over 50 years of commitment to the office furniture industry. Dams are a privately owned and proud UK manufacturer of office furniture, operating from 3 sites in Knowsley, Merseyside. Now employing over 280 people in the UK, Dams are uniquely placed to meet the diverse, ever changing needs of the office furniture market.

Our Social Spaces portfolio was launched in 2016 to cater for the growing desire for design-led soft seating furniture to transform the office environment into a modern, multi-functional workspace where people can meet, relax, work or dine in comfort.

## UK manufacturing

Decades of tradition and know-how go into the design and production of furniture at our facilities in Knowsley, Merseyside. Every piece of furniture in our Social Spaces range is made to order, with skilled precision and rigorous attention to detail.

Products are manufactured in the UK in our new and improved upholstery factory ensuring we are well equipped to respond quickly to any customer requirement.

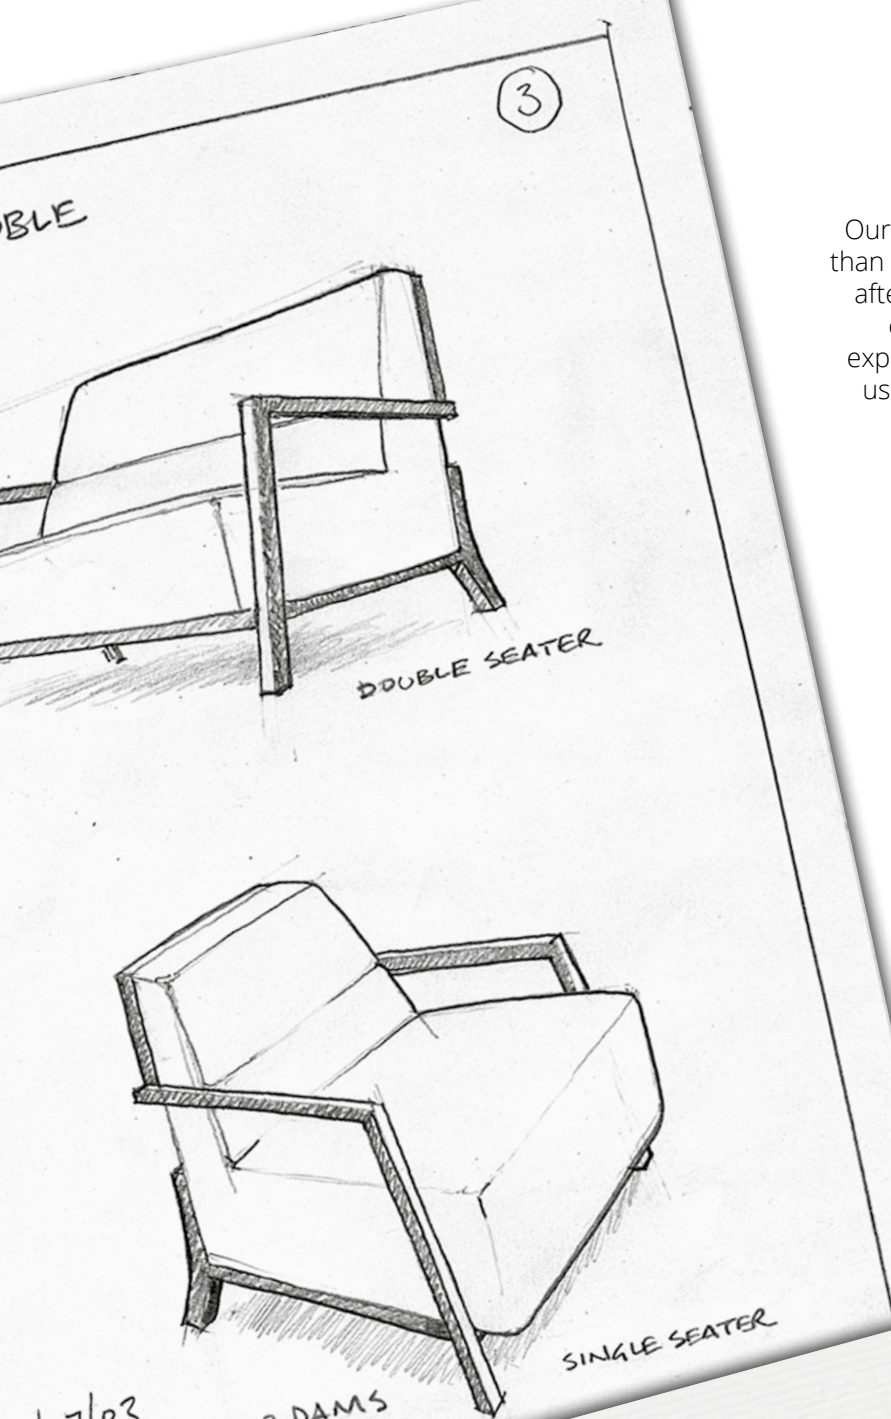

"Designed and manufactured in the UK by Dams"

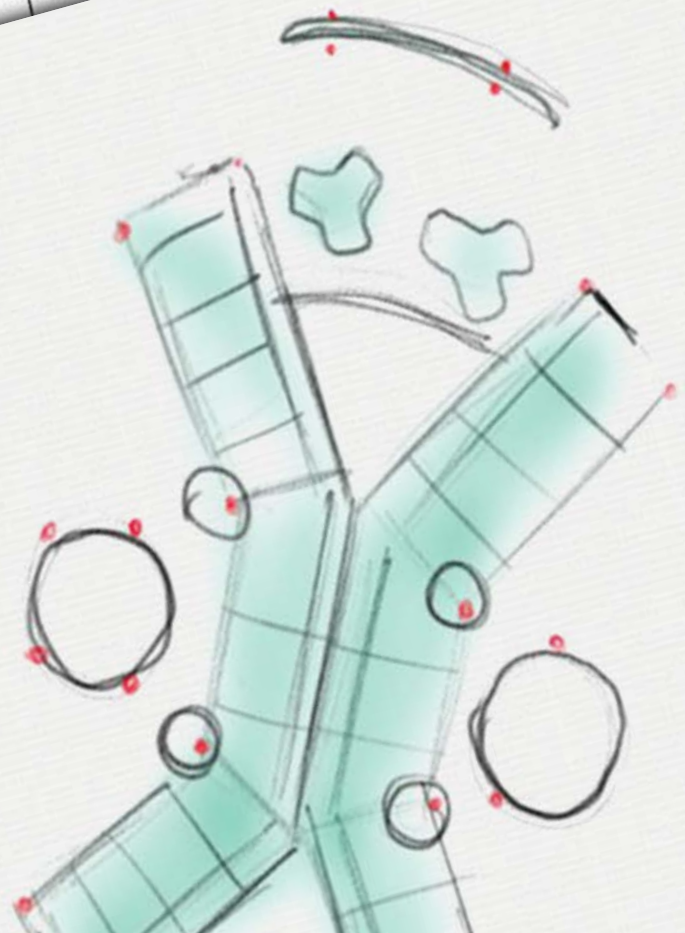

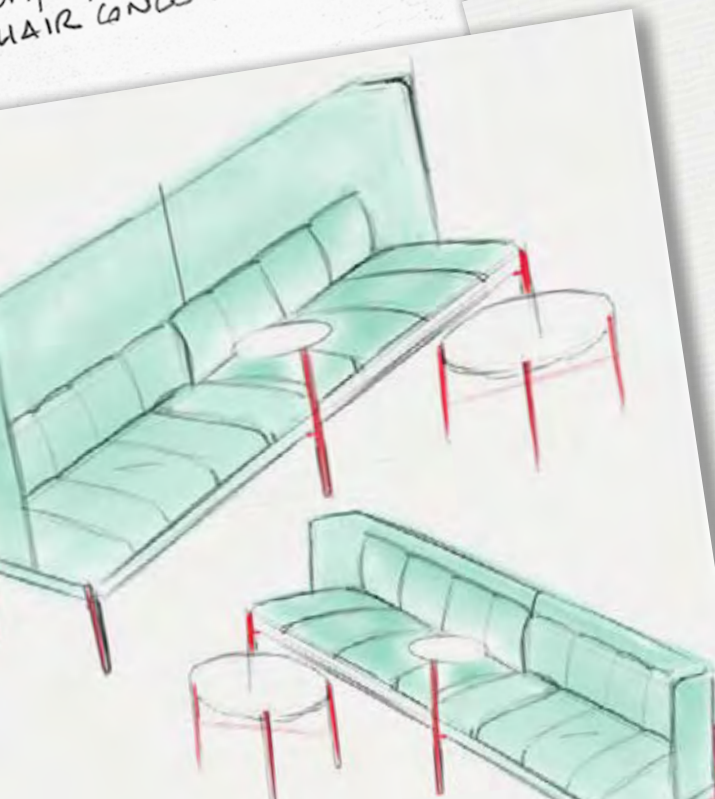

# product design

Our Social Spaces product portfolio is more diversified than ever with unique product offerings that are sought after for their compelling design, superior quality, and exceptional value. Our key industry knowledge and experience drives the highest levels of product quality, using the latest technology and high-grade materials.

Modern office environments call for stylish design in every aspect of their specification and our Social Spaces portfolio offers all the good looks and aesthetic choices to satisfy the latest trends and the most enduring designs.

# soft seating

Upholstered soft seating helps to create relaxed working environments where people can go for some time away from their desk, meet and collaborate or bring their laptop with them to work away from the distractions of phones and colleagues.

An extensive range of fabrics and finishes can add style, colour and interest to any office space by creating a relaxed and unique, fully co-ordinated look, perfect for social spaces, working hot spots or for use in a reception area where visitors can rest in comfort.

# KASTAWAY

## MODERN LANDSCAPE FURNITURE

Kastaway is symbolic to being somewhere tranquil and relaxing opposed to a high pressure environment. The Kastaway landscape furniture collection can be linked together with details or shapes, or used as stand alone pieces, creating bespoke, flexible furniture solutions that can easily be arranged in a variety of dynamic configurations, making them ideal for employees and small groups to relax or meet informally.

## SCULPTURED DESIGNER SEATING

Designed with comfort in mind, Figaro lounge seating's sculpted seat and back cushions make it both eye-catching and timeless. Figaro seamlessly crosses the line between retro style and contemporary design and is extremely well crafted with a sturdy construction. The high back chair, with provocative lines and curves, is ideal for when people need time to unwind and recharge, and the medium back is ideal for a relaxed or casual collaboration.

# TWIST & SHOUT

## SOPHISTICATED DESIGN STYLING

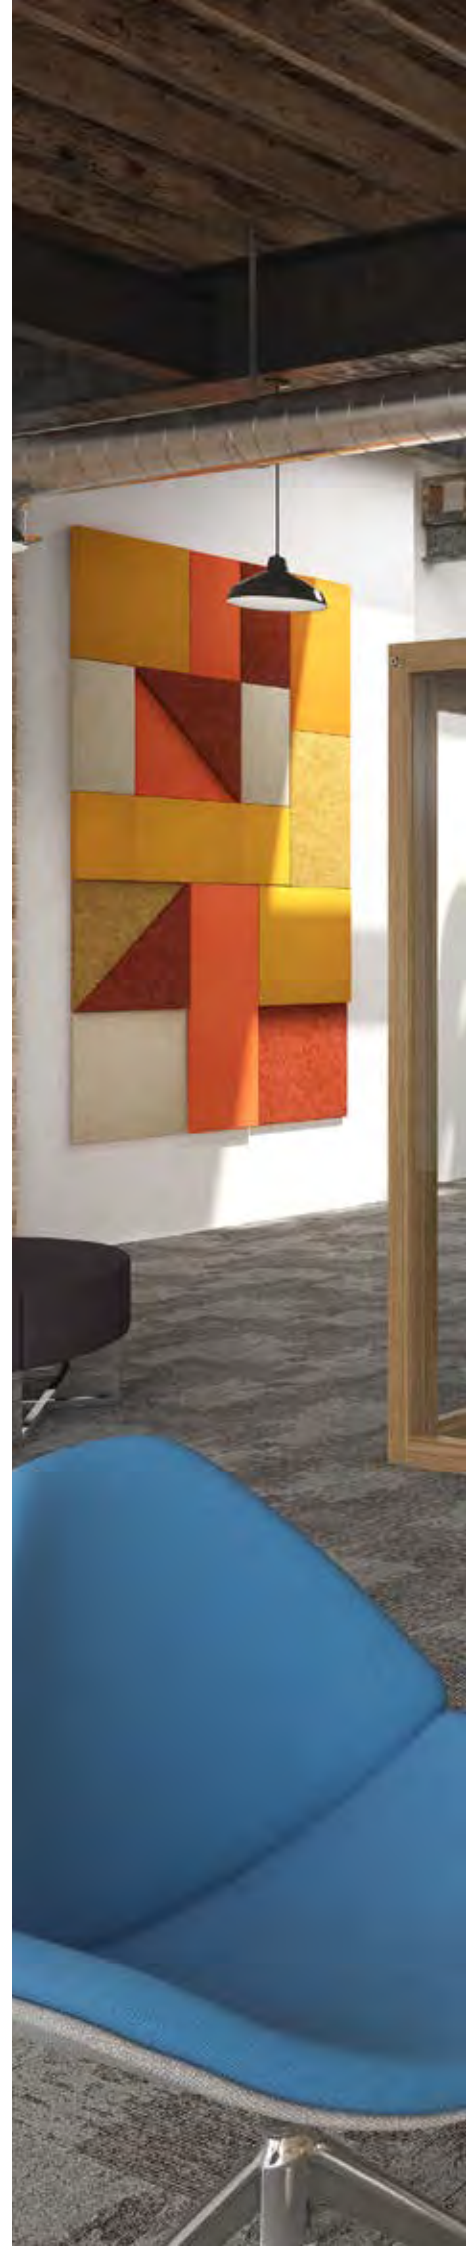

The graceful curves and refined shape of the Twist & Shout chairs offer a welcoming place to work casually and comfortably. The chic frame design provides a contoured platform that supports sophistication, a welcoming seat and two expressive back shapes that both combine the pleasure of a warm embrace with a versatility suitable for any office environment. The 3 base styles and tablet arm option also make them ideal for classrooms, common areas, and meeting rooms.

# COOPER

## TIMELESS, DISTINCTIVE SEATING

The Cooper seating family is what every good business needs, understated style and durability. Visually these pieces seem familiar, almost vintage, but with important original features including clean and confident lines defining the wooden frames and the deep, inviting form of the cushioned seats. The Cooper chairs offer an exceptional level of comfort and are smartly sized to make a big impression, even in small spaces.

## acoustic hubs

Acoustic pods are ten a penny. Google those words and you are spoilt for choice with a wide range of office pod manufacturers. But an acoustic Hushhub, that's something a bit special, more unique. A return to the natural world is key to the thinking behind Hushhubs. Using natural products – biophilic is the way to go!

Not only more aesthetically pleasing to look at, natural products are more tactile, wellness-centred, biophilic, homely, and when it comes to good acoustics, measurably more effective. Acoustic office meeting rooms don't get any better than this!

Believed to be the first hub which combines natural materials with exceptional acoustic qualities, the advantages of Hushhubs:

- perform better acoustically than aluminium framed rivals as solid oak is a natural blocker of sound
- have very high mass per surface area, a major factor in the ability of a wall to block sound
- have lower reverberation, no sliding doors or flutter echo and keep acoustic pores open
- perform better aesthetically and can provide branding/customising opportunities
- are flexible in size and transportable flat-packed, with installation on-site
- are wheelchair accessible
- allow for natural air circulation, no fans required
- don't require planning permission or building regulations
- can be planned into new builds or retro-fitted into existing open plan areas

# HUSHHUBS

## THE PERFECT ACOUSTIC WORKSPACE

Privacy can be difficult to find in a modern, open plan office. From the smallest hub, which is like a telephone booth and adequate for one person, to the largest which can accommodate groups, Hushhubs can be adapted and customised to fit your own office requirements, creating multiple working zones in one place. The biophilic approach of our hub design helps to create a welcoming environment and has a marked effect on our creativity.

The door is always a glass side.

# PERSONALISE YOUR HUB

## INTERIOR

### acoustic panels

Good acoustics have been proven to aid productivity, but acoustic fabrics can also be a design feature of the hub, with a wide selection of different fabric styles and colours available which allows the specialist acoustic system to do what it needs to do. 50mm thick ceiling panels will absorb 85% of the noise that hits them, with clean ceiling lines that look aesthetically pleasing from inside and out

### lighting options

Acoustic hubs offer a user-friendly touch screen interface, giving you full control of the lighting. Energy saving LED lighting is integrated into the acoustic hubs ceilings and controlled with a sensor in the ceiling of the hub to a wireless switch on the inside of the door frame. Alternatively, pendant lights can also be used to create a more relaxed environment and a more homely feel.

### power units

The hubs have been designed with state-of-the-art integrated technology. Each hub is supplied with a PTN-1T Proton panel mounted unit (1 x UK socket, 1 x TUF (A&C connectors) USB charger), with hidden cabling behind the full removable panels which allow access to a 'plug and play' data and power system. With further advanced technology features available, the hub works around you and your requirements.

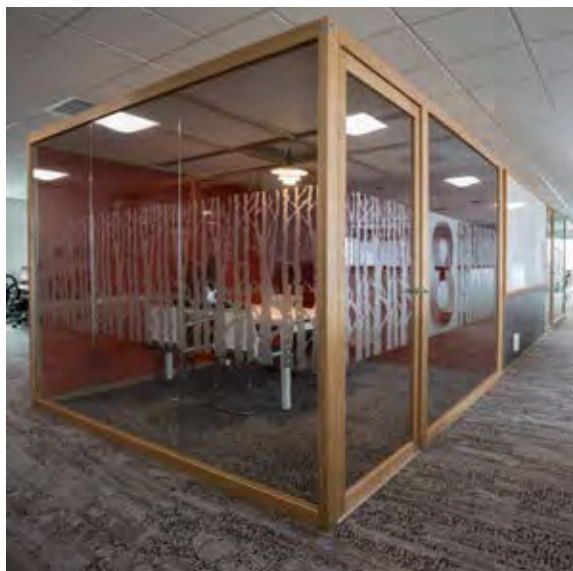

The flexibility within Hushhubs allows inviting areas to be created which can be specially designed to work in conjunction with existing office furniture, accessories and ancillary products.

## EXTERIOR

### external surfaces

We're committed to protecting the environment and always aim to manufacture our acoustic hubs using only recyclable and sustainable materials. The laminated panels we use are produced from 100% fully recycled material and are available in different finish options that don't just suit the company's needs, but your professional style as well, so you can make this workspace your own.

### glass panels

The smooth, laminated glass panels of the hub are 12.8mm (dB39) thick for superior acoustic performance, and can also be embellished. The application of large window graphics can personalise the hub in a unique way and give it an identity. Writable glass is available in a variety of colours allowing magnets to be used on dry wipe writable glass – and again, the possibilities are boundless.

### evolving workspaces

The exterior of our acoustic pods can become a work area too, modernising the way people work. Meetings can take place directly outside the acoustic hub with an area for learning or presentations enhanced by a whiteboard or blackboard wall running the full length of the hub, a television wired into the hub, or even a touch screen media wall, together with some soft seating and meeting tables.

### 3

## worktables & benches

Table and bench systems are a creative, practical solution for any breakout space, office canteen or café area. The table and bench combination makes a real visual impact, and if you wish to enhance the look of the bench by including a touch of colour, fabric seat pads can be added to make them more comfortable.

High poseur tables together with benches or stools can also offer a more versatile experience which will enhance any breakout zone or dining area, providing provision for stand-up snacking or stylish relaxation.

# ENABLE

## FULL-FACILITY TABLE PLATFORM

The Enable table and benches are part of a bold and contemporary collection of furniture designed to make a real impact. Presenting a multitude of shape and layout options, the range of tables, benches and stools will enable you to create a dynamic, collaborative area for the modern trend of agile working, providing an inspirational and welcoming work area which is fully customisable with power and data, lighting, plant life and much more.

## 4

# tables

Dining tables are sleek in appearance but built to withstand the varied demands of everyday life, offering a contemporary layer of style to any office breakout room or café area. Available with circular, square or rectangular tops in various sizes, you can also select from a wide range of base designs, edge finishes and laminate colours.

Tall poseur tables are a very popular choice thanks to their simple yet stylish design, and a coffee table is a great choice if you want to create a simple but impactful look in a breakout space or café area.

# KARMA

## STYLISH TABLE DESIGNS

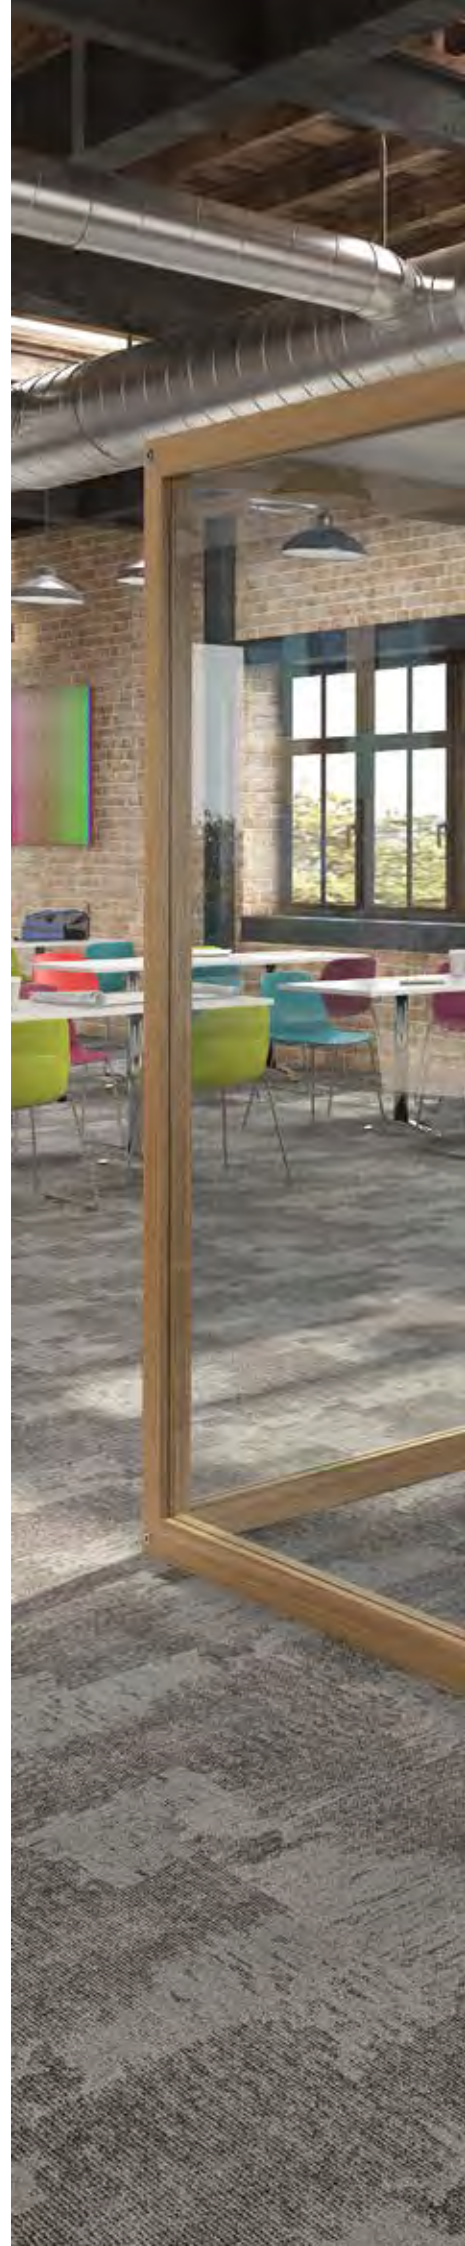

Karma is a full-facility table range that offers a range of table sizes, top shapes and materials with solid oak legs that allow you to personalise the furniture to the design intent and character of the space. Select the perfect table for your working style or meeting space with nine table top shapes which can be used in various configurations, and it's also easy to power up the Karma table with a 80mm central hole option for integrated power, data and charging.

## soli workspaces

Highly relevant in today's modern open plan offices, Soli Workspaces are designed for those moments where personal space is required to focus on tasks with minimal noise and distraction.

The solo booths are a great place for individuals to seek refuge away the busy, hectic office environment by creating a compact, secluded working area which is sometimes needed for a period of intensive work or concentration to finish off the job in hand. Soli's modular design can be easily extended with numerous configurations to suit any office layout.

# HUBS

## PRIVATE ACOUSTIC WORKSPACES

Too much interaction and not enough privacy has become a real issue for employees who need to concentrate or just take a break during the working day. Soli Hubs bring a new level of flexibility to the office with versatile, individual cubicles to suit all working styles. Soli's unique connection joints allow for endless workstation permutations, sharing components which saves space and costs compared to stand alone units.

## PRIVATE WORKING BOOTHS

Soli Squares are high tiered square booths designed to provide a high level of acoustic and visual privacy, allowing individuals to concentrate and complete focussed tasks in a private space within the workplace environment. Soli's unique connection joints allow for multiple, additional workstations using shared components which saves space and costs compared to stand alone units. Desktops can be positioned to suit different working styles.

## PRIVATE WORKING BOOTHS

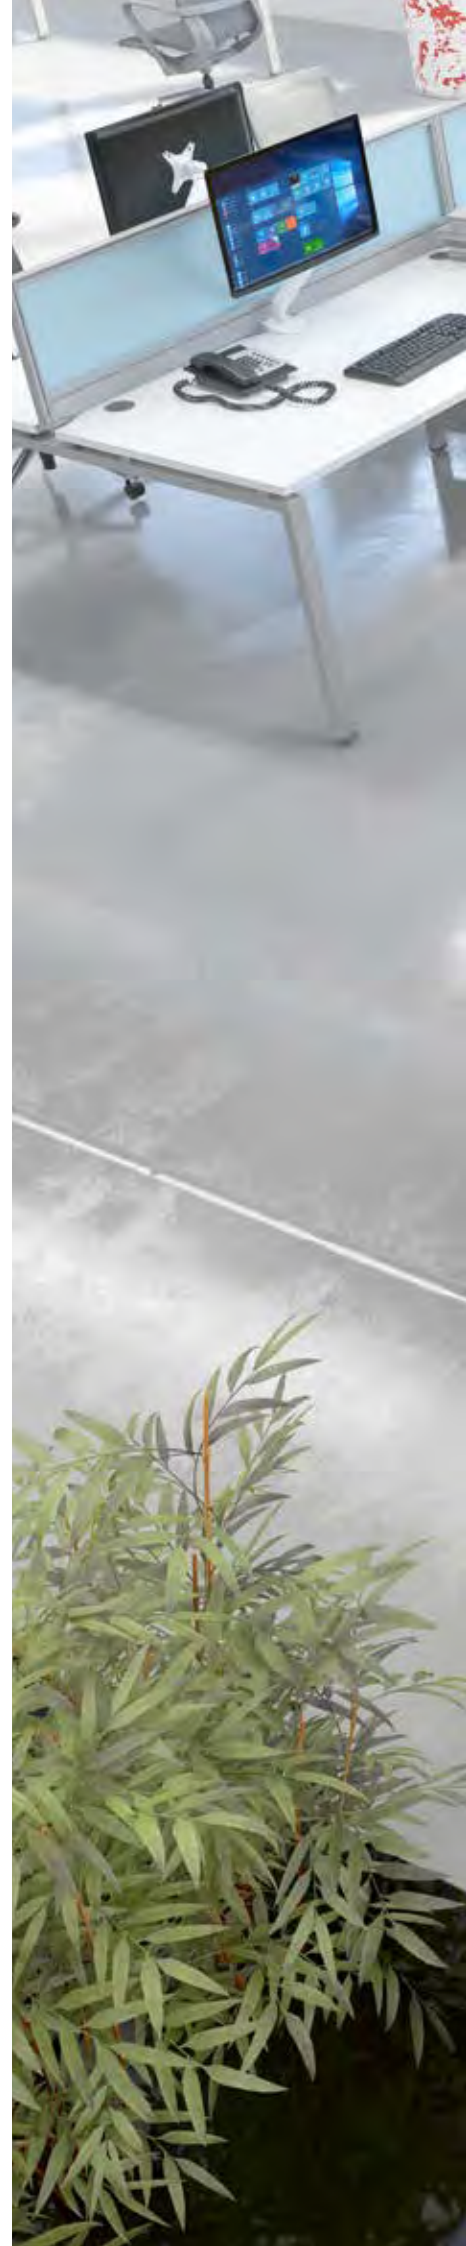

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Soli Triangles which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces and Soli's unique connection joints allow for copious arrangements, sharing components which saves space and costs compared to stand alone units.

## piano acoustics

Acoustics are essential in making our surroundings enjoyable by minimising noise, controlling reverberations and general improving the quality of the acoustic environment in office, education and commercial interiors.

The Piano Acoustics range of screens, wall tiles, ceiling tiles, suspended panels and patterned dividers provides open plan offices and breakout spaces with multiple levels of acoustic absorption which are not only colourful and modern additions to the office aesthetics, but are also pertinent to the task at hand in each area.

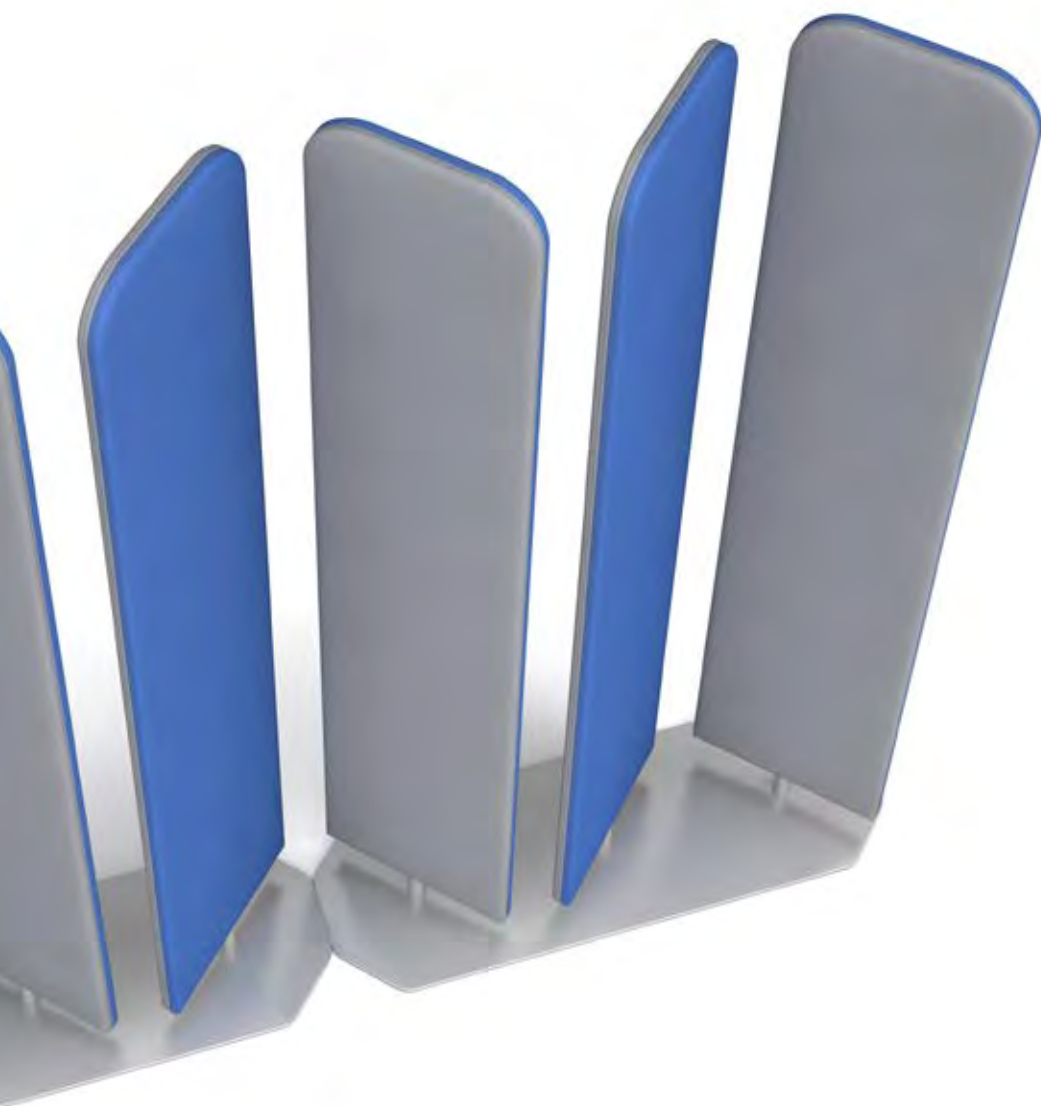

# PIANO KEYS

## ROTATING ACOUSTIC SCREENS

The Piano Keys Screen is a breakthrough alternative to traditional floor screens that is changing everything - from the minds of office planners to the hearts of designers. The free-standing screen is made up of three individual acoustic blinds which stand on a sturdy base plate. The fabric covered acoustic panels rotate fully 360 degrees to provide complete privacy and visual protection when they are closed, or open the space up at any given time.

# TILES - WALL

## MODULAR ACOUSTIC PANELS

Our Piano Tiles for walls are modular, acoustic panels are the decorative solution to sound control needs in any office, education or retail environment. Available in square, triangular and rectangular shapes in a choice of colours and thicknesses, Piano wall tiles can turn an empty wall space into a creative work of art which not only looks aesthetically pleasing but also provides excellent acoustic performance.

# TILES - CEILING

## PROFILED ACOUSTIC ABSORBERS

Piano ceiling tiles can either be suspended from the ceiling and hung at various heights to offer multiple levels of more focussed acoustic control, or fit directly into 595mm x 595mm standard ceiling grid systems to dissipate sound. An ideal application for open plan offices, Piano ceiling tiles creates a unique feature that enhances spaces visually and acoustically with an unobtrusive addition to the working area.

# CHORDS

## DESIGNER ACOUSTIC DIVIDERS

The simplistic beauty of the Piano Chords hanging acoustic panels is that they are available in five unique natural and geometric designs with a selection of colours, styles, and endless design possibilities. Piano Chords are hung from the ceiling with brackets and suspended tracks and act as a dividing curtain to provide the necessary combination of sound absorption and attenuation to control noise in interior environments.

## PIANO Chords & Scales fabric options

## INFO Important information

### Hazard ratings

Low - EN1021 Parts 1 & 2 cigarette and match

Medium - BS5852 Ignition source 5 / Crib 5

### Photographed upholstery

While every effort is made to represent colours accurately, we cannot guarantee the colours you see exactly match the colours of the actual fabric due to printing processes.

### Fabric bands

Please contact our sales team for a price if your preferred fabric choice is not listed. Please make sure you check the suitability of a fabric before recommending a product. If two fabrics are used on one item e.g. two-tone, the cost is calculated on higher of the two fabric bands.

### Colour variations

Whilst every effort is made, no guarantees are made against the minor variations in the colour of commercial fabrics. All striped fabric will be upholstered vertically unless advised.

### Customers own materials

Fabrics not listed or customer supplied fabrics need to be approved before acceptance of orders. A pattern charge may apply to some fabrics. We reserve the right to reject fabric that we believe to be unsuitable for the product. We are unable to guarantee any product meeting fire regulations or standards which is supplied by a customer.

Please contact our sales team if you would like any fabric samples sent out to you.

## GUARANTEES Warranty details

All Social Spaces products are guaranteed for a period related to the usage and the structural capability of the product. Regardless of usage, all products are guaranteed against manufacturing defects, except for upholstery and bases which are subject to usage related wear and tear.

The guarantee is effective from the day the product leaves the factory and the supplier reserves the right not to apply the guarantee in cases of inappropriate use or when the product has been tampered with by a third party or interventions by non-authorised personnel.

## SERVICES

The success of any project involves skilled, specialist knowledge and expertise to ensure that every delivery and installation exceeds customer expectations time and time again. From initial concepts through to completion and beyond, our highly experienced team deliver a professional and accurate project.

We manufacture specialist furniture that combines technical and aesthetic performance and all Social Spaces products are supported by our renowned 5 year guarantee. Our after sales service team are also trained to offer ongoing training, support and assistance with any issues that may arise.

We also recognise that manufacturing operations have an effect on the local, national and global environment and we are committed to achieving continual improvement in environmental performance and preventing pollution. We also offer a complete furniture recycling and re-purposing service for our clients.

## INFO Important information

### Ordering

As all products in the Social Spaces range are "made to order", it is our policy that once these products have been ordered they cannot be canceled or amended. All orders need to be placed on a Social Spaces™ order form. Please contact the Dams sales team for order forms.

### Pricing

All prices shown are in sterling (£) and are subject to current rate of VAT.

### Delivery

When ordering please ensure that the current delivery route is clearly marked on the order. Dams offer a number of delivery solutions from delivery to trade warehouse, direct to end user and fully installed.

Delivery charges to be agreed at order confirmation.

### Lead Times

Lead times are 4-6 weeks but will vary from range to range. Every effort is made to maintain the quoted lead time, please contact your sales manager for current delivery lead times.

### Warranty

All Social Spaces products are guaranteed for a period of 5 years regardless of usage. All products are guaranteed against manufacturing defects, except for upholstery, castors and mechanisms which are subject to usage related wear and tear. The warranty is effective from the day the product leaves the factory and the supplier reserves the right not to apply the warranty in cases of inappropriate use or when a product has been tampered with by a third party or interventions by non-authorised personnel. All complaints concerning the goods must be made in writing and the company shall undertake to repair any product or part of a product that proves to be faulty.

### Measurements

All measurements are in millimeters and can have a tolerance  $\pm 12\text{mm}$  on all soft seating. Measurements may vary depending on components used and we reserve the right to change them from time to time.

If you require any additional information or clarification, please contact the Dams sales team.
