## INTRODUCING KUDDLE

We believe that offices shouldn't look like offices. They should look and feel like adaptive, flexible, and fun spaces that create a relaxing and sociable atmosphere for everyone. We want to uplift workspaces, encourage collaboration, and ultimately make us feel more at home in our workspaces.

The collection offers its users the chance to move away from the traditional look and feel of the office, instead, creating breakout spaces that are open, comfortable, and uplift its users' mood and productivity levels.

We offer a fully customisable service, with a wide range of fabrics and finishes to choose from, and optional integrated power supply, to support laptops, phones, and screens.

Intertwining soft seating into working and learning environments is the ideal way to create relaxing spaces where creativity is able to flow freely without the added distractions that busy office settings can bring. Designed and manufactured in the UK, our range of soft seating and dens create modern, comfortable, and unique furniture that can adapt perfectly to social, working, and learning spaces and encourage creativity and productivity.

# LOW SEATING

Our low armchairs and sofas are ideal for refreshing busy and tired office spaces, offering a retreat for working, eating, or connecting with others. Whether you're looking to create breakout spaces, create a space to read your reports, or are just looking to modernise the feel and aesthetic of your working environment, our armchairs, two-seater and three-seater sofas are the perfect fit in any workspace.

The low seating can be upholstered in a fabric of your choice, making a bold and individual statement for your space.

## HIGH SEATING

Our high seating, much like our low seating offers space for collaboration, productivity, and socialisation; however, with the addition of a high back, can offer privacy too. This high seating was designed with versatility and simplicity in mind, providing a connective and innovative area for presentations, casual meetings, and collaborative projects.

## KUDDLE - CREATED BESPOKE FOR YOU

Designed and manufactured in the UK, our soft seating range offers a fully customisable service, aiming to meet each customer's personal needs and requirements.

We offer a wide range of fabrics and can upholster to match personal taste and brand aesthetics to create a space that is perfect for you and your business.

As part of our fully customisable service, we can also offer our customers bespoke sizing, tailoring our products to fit within your space, however compact or open.

Our metal legs and frames are available with a black or white powder coat finish as standard, but we are able to customise colours to specifically match your office decor.

So, whether you're looking to create bright breakout areas or match all colours to your brand to keep a consistent style and feel, we can create this easily, tailoring everything to your specific requirements.

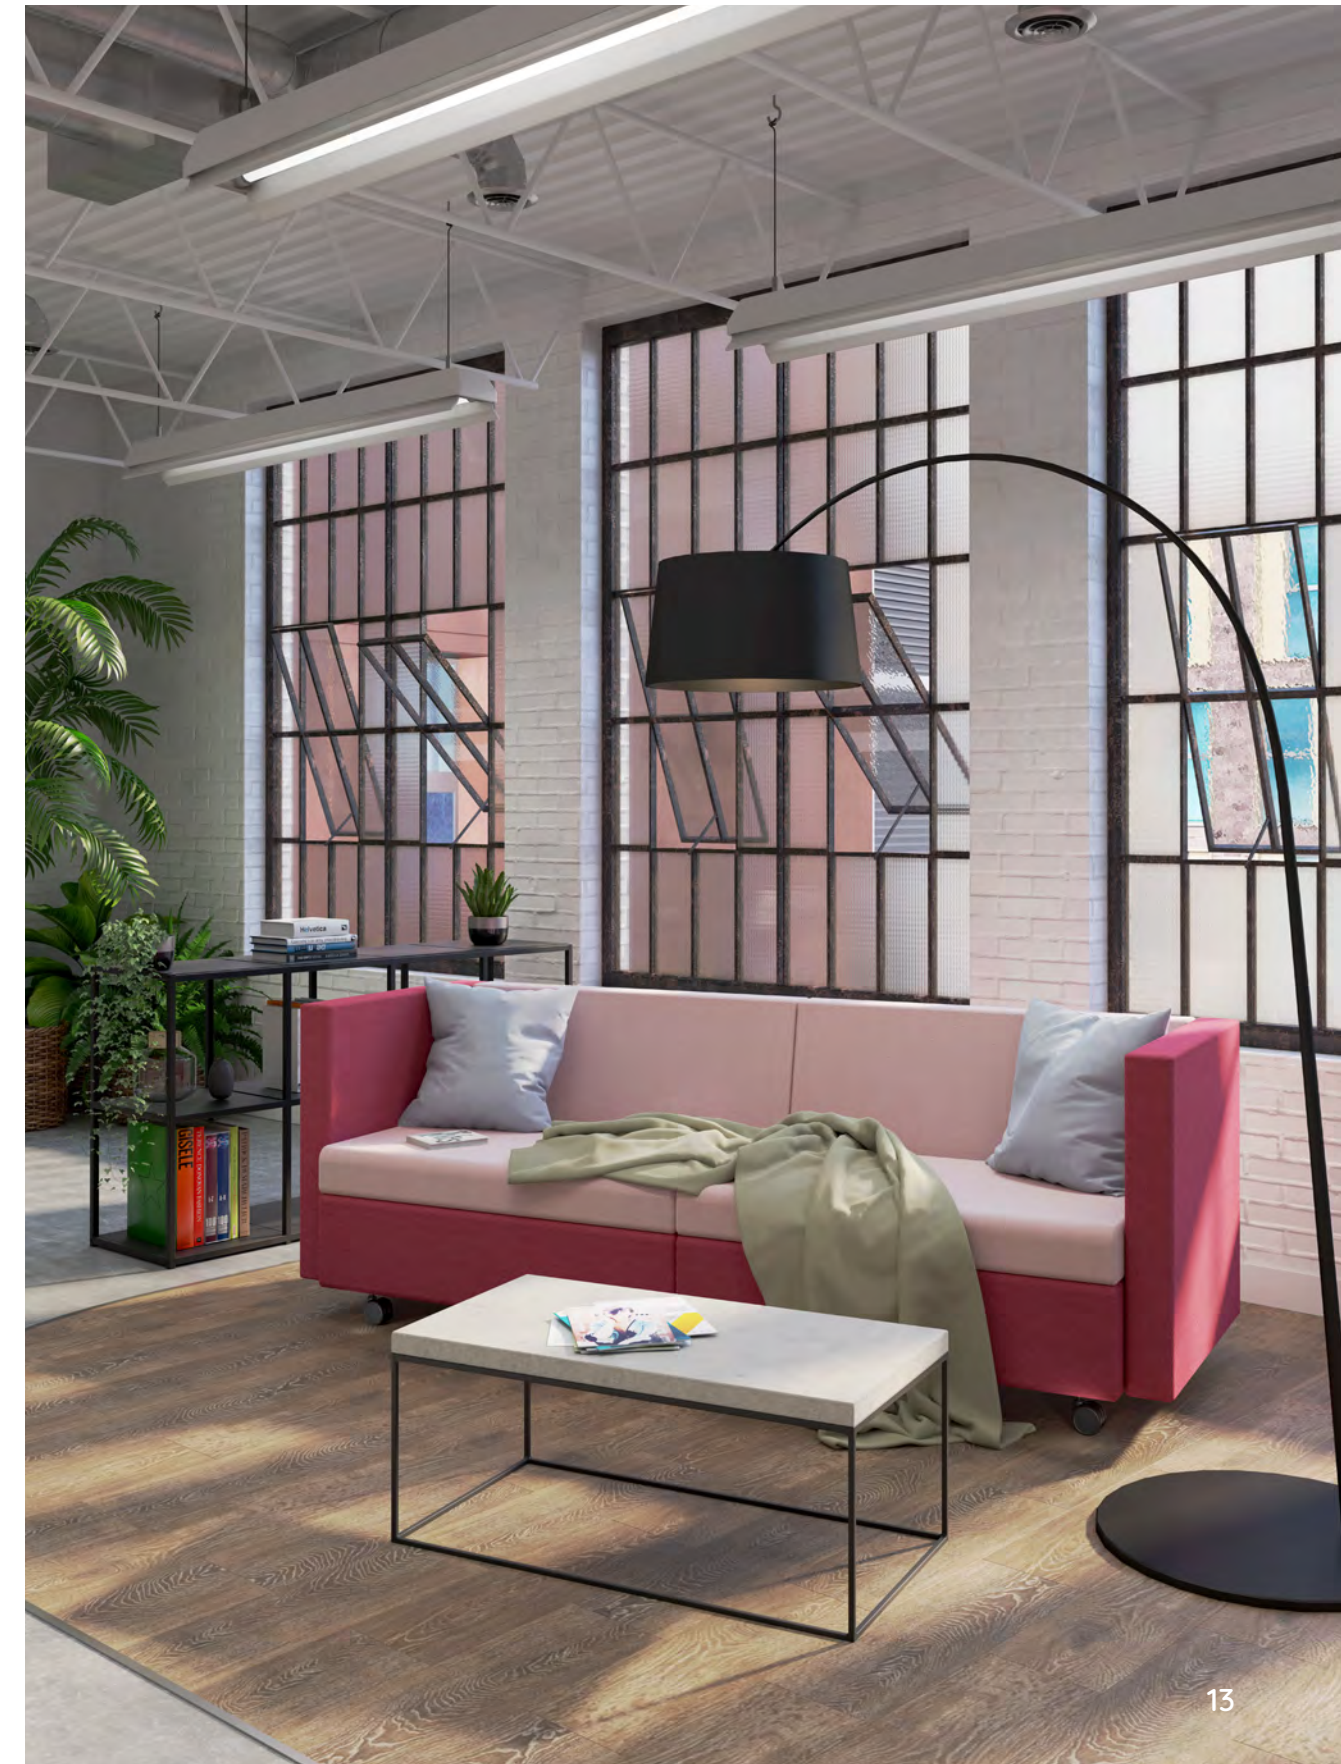

To view a complete list of our fabric and finish options, please see pages 44 - 47.

## MOBILE LOW SEATING

Our armchairs, two-seater, and three-seater sofas on castors are a perfect edition to re-energise working, learning and social spaces. These chairs have been specifically designed with castors to enable movement and collaboration between its users and allow them the ability to redesign spaces to fit their own requirements.

Our low dens are perfect for collaboration, project work and casual meetings. They are ideally suited for workspaces and public facilities such as libraries, community, and leisure centres and are available in 2, 4 & 6 person configurations. Our dens are versatile, adapting to any space to create open and comfortable atmospheres. With a variety of fabrics, finishes and leg frames to choose from, you can customise them to fit with your existing style and décor.

## HIGH DEN

Our high dens have been specifically designed to offer an essential area for private and project work within busy office spaces. With a central table, high back seating and optional power supply to provide space for laptops and TV screens, our high dens allow its users the ability to work in their own space or accommodate group projects and meetings comfortably and practically. Our dens are available in 2, 4 & 6 person configurations.

## INTEGRATED TECHNOLOGY

More than ever before, we rely on technology; screens, tablets, laptops, and phones becoming ever-present in our lives and harder to work without. Our soft seating range is entirely bespoke with an abundance of solutions to our co-dependency with technology.

Our collection offers a range of built-in technology options, enhancing not only the way we can work in office spaces, but also how we can connect and collaborate.

Choose from an integrated power supply, wireless charging, and lighting, perfect for users looking to be able to hot desk and move around their space freely. Optional plug and USB ports and brackets to mount TV screens to booths are perfect for video conferencing, presenting one on one, and casual meetings.

Create a comfortable and practical solution to re-imagine spaces and make them work for you and your team.

To view a small selection of the integrated power modules which we offer, see page 47.

# OPEN RETREAT

Our open retreats offer an open space for the user, with optional integrated USB and plug ports and a slanted roof that provides added privacy. Our open retreats have been designed specifically to work in breakout, meeting, and presentation spaces. So, whether you're looking for a space to hold casual meetings or just somewhere to be able to take a phone call, our retreats can adapt to all of your requirements. Available in 2, 4 & 6 person configurations.

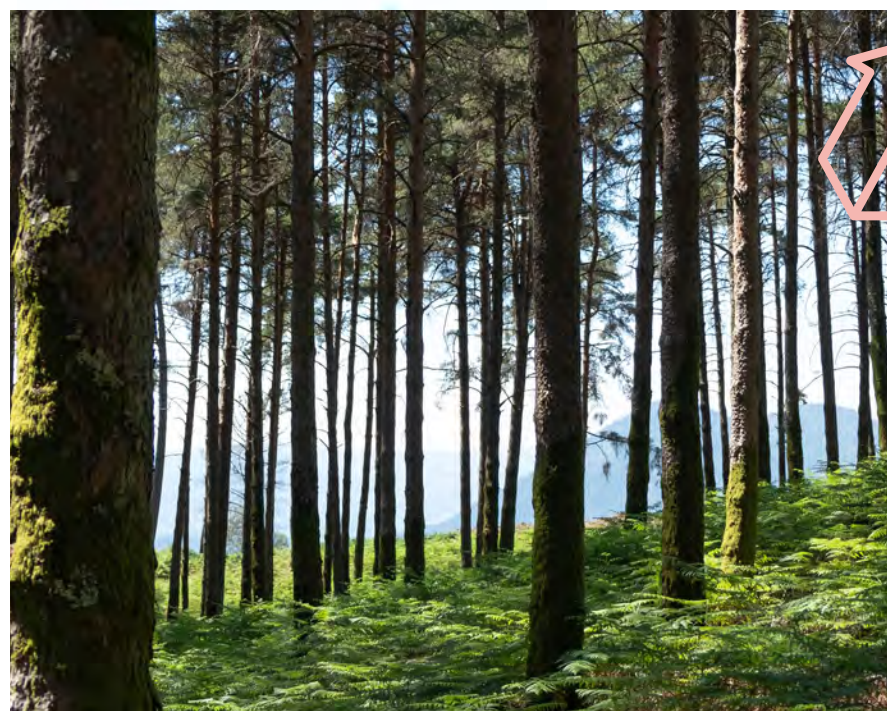

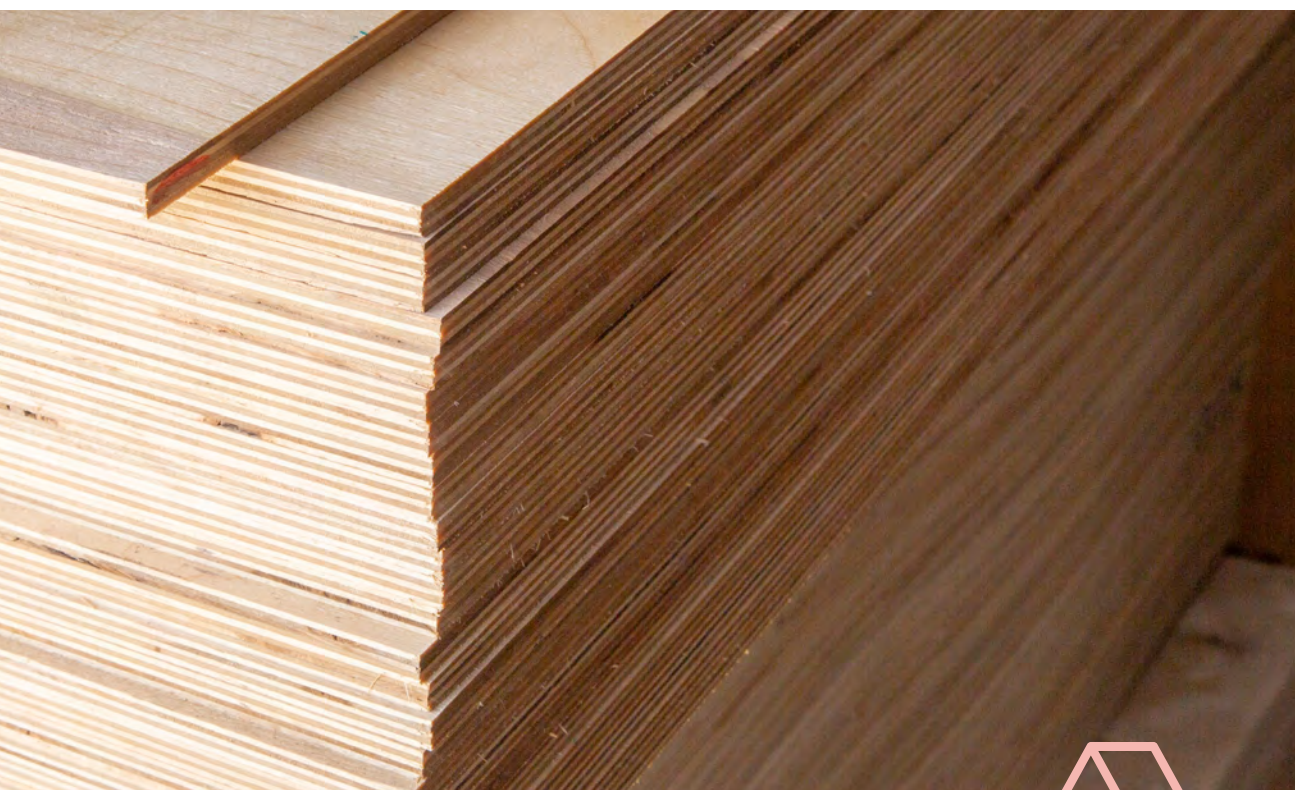

## RETREAT

---

Retreat is the perfect solution for office and learning environments looking to re-energise their space. With a slanted roof, high side panels, and a central table with optional integrated power supplies, lighting and TV screens, users can work comfortably within these retreats, whether it be in private or as a collective team.

## SUSTAINABILITY & FISP

Concern for the environment and the connection people have with it, is integral to our business and reflected in all our products. We place the highest importance on creating long-lasting designs, so you can use our products for years to come.

Sustainability and responsibility are two aspects that are closely interlinked within the furniture industry and is something we take seriously when designing and developing new products and ranges.

This collection highly adheres to the idea of being sustainable and environmentally friendly. The materials used to construct the furniture have been sustainably sourced from FSC suppliers and manufactured in accordance with FISP (The Furniture Industry Sustainability Programme), based around sustainable and ethical development and can be used to meet furniture criteria on SKA rating.

# COVE DESK

Our cove desks are a perfect way to reconfigure tired and busy office spaces. These desks can be arranged in various ways, tailored to your own personal needs and requirements for your space. Our solitary workstations are the perfect solution for loud and busy working environments, creating a space to quietly work in privacy and your own space.

# LOW SEATING SPECIFICATION

Our low armchairs and sofas are versatile and ideal for social and breakout spaces that are looking for a refresh of colour, style, and comfort.
